

1.1 Technologies that store or access data on your device

We use certain technologies (e.g., SDKs, APIs, etc.; hereinafter: “Technologies”) that are tools provided by the manufacturer of a platform, operating system, or programming language for various purposes. We use such Technologies for strictly necessary technical purposes or to make more convenient your use of our application on your device.

You are free to make your choices and allow or reject the use of Technologies that store or access data on your device. Please note that certain convenience features and functions of the application require such Technologies and may not operate properly if the use of such Technologies are not allowed.

You can reject the use of these Technologies by changing your choices in our app.

1.2.1 Strictly Necessary Technologies: such Technologies store or access data on your device that are strictly necessary for the operation of our application: without these essential Technologies the application will not operate at all or as intended, and these Technologies are necessary to run our application on your device.

These Technologies cannot be disabled. If you block these Technologies as a user, our app will not operate properly. We use necessary Technologies in line with Article 6(1)(f) of the GDPR, and Section 13/A(3) of Act CVIII of 2001 on electronic commerce, in order to provide our services to you.

We use the following essential Technologies:

Name	Data	Purpose	Technology category	Period of data retention
Firebase RemoteConfig SDK	User device type, device operating system version data	The purpose of this Technology is to change the behavior and appearance of the application without publishing an update.	Third party	1 month

1.2.2 Performance Technologies: these Technologies refer to tools used specifically for monitoring performance of the application, gathering data on how visitors use the application, which parts they use and whether they get any error messages. We use Performance Technologies based on your consent in line with GDPR Article 6(1)(a) and Section 13/A(4) of Act CVIII of 2001 on electronic commerce. You can withdraw you consent at any time. The withdrawal of consent does not affect the lawfulness of processing based on consent before its withdrawal.

We use the following Performance Technologies:

Name	Data	Purpose	Technology category	Period of data retention
Firebase Crashlytics SDK	User device type, iOS version, crash data	This Technology is a realtime crash reporter that helps us track, prioritize, and fix stability issues that erode the application’s quality.	Third party	12 hours
Firebase Perf SDK	Performance data	The purpose of this Technology to helps us to gain insight into the performance	Third party	12 hours

		characteristics of our application.		
FirebaseAnalytics SDK	User activity, device type, app version, OS version	The purpose of this Technology is to help us understand how you use our application.	Third party	1 year
Google Analytics SDK	User activity, device type, app version, OS version	The purpose of this Technology is to help us understand how you use our application.	Third party	1 year

1.2.3 Targeting Technologies: we use Targeting Technologies to gather information about you and from your device to provide you with more personalized experience with our app and display more relevant advertisements to you based on your preferences and to measure application analytics. The legal basis of the data processing is your consent based on GDPR Article 6(1)(a) and Section 13/A(4) of Act CVIII of 2001 on electronic commerce. You can withdraw your consent at any time. The withdrawal of consent does not affect the lawfulness of processing based on consent before its withdrawal.

We use the following Targeting Technologies:

Name	Data	Purpose	Technology category	Period of data retention
GoogleMobileAds SDK	User preferences	The purpose of this Technology is to enable us to show you advertisements in our application.	Third party	1 year

1.2.4 Functional technologies: we use these Technologies to allow our application to send you messages, notifications and offer you convenience services. We may use such Functional Technologies based on your consent in line with GDPR Article 6(1)(a) and Section 13/A(4) of Act CVIII of 2001 on electronic commerce.

We use the following Functional Technologies:

Name	Data	Purpose	Technology category	Period of data retention
Airship SDK	Direct engagement (clicks), session, custom events, browser cookies, attributes, tags, named user, registration, opt-out	The purpose of this Technology is to send notifications and gather data from your device.	Third party	1 year
Firebase Messaging Android SDK	E-mail address, mobile phone number	This Technology enables us to send you push notifications and messages.	Third party	1 year
Cartrawler Mobility SDK	Country, location data, travel data	This Tehnology enables us to offer new ground transportation options to you within our application.	Third party	1 year
Regula SDK	Pictures, user identification document data	The purpose of this Technology is to allows us to read various kinds of	Third party	1 year

		identification documents, passports, ID cards, etc. All processing is performed completely offline on your device.		
DGC SDK	Data relative to digital covid certificate	The purpose of this Technology is to integrate information relative to your COVID-19 certificate into our app.	Third party	1 year
Google Play Services Measurement SDK	User activity, device type, app version, OS version	The purpose of this Technology is to provide application analytics data to improve our services.	Third party	1 year
PayCardsRecognizer SDK	User data, credit card data	The purpose of this Technology is to provide integrated credit card scanning function.	Third party	1 year

1.3 For further information regarding Technologies used in our app, please contact us at our electronic contact details at <https://wizzair.com/en-gb/information-and-services/contact/contact-us>
